

St Paul's Performance Tables 2017

KS2 SATs – Y6

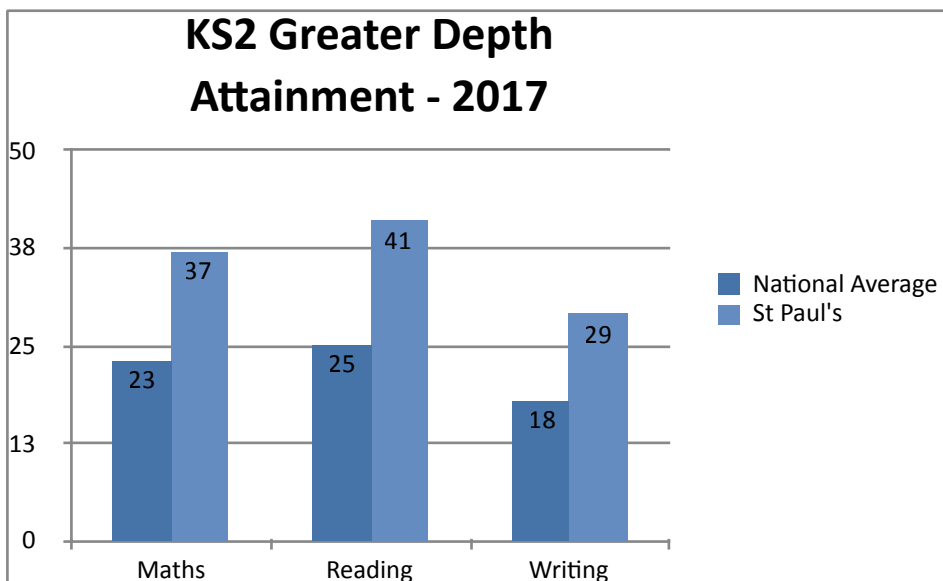

Key Stage 2 one again produced an excellent set of results in the academic year 2016-2017. Compared to the national, our attainment across the board is exceptionally high, and we are incredibly proud of our children and all they have achieved.

Below, you will find the breakdown of how we compare percentage-wise in each subject:

75% of children in Y6 achieved the expected standard combined in reading, writing and maths. We are extremely proud of our pupils, who scored well above the national average of 63% for all three subjects.

Our achievements do not end there! We also attained phenomenal results in the number of pupils being awarded 'Greater Depth' – see our percentages below:

'Greater Depth' means that the children achieved a scaled score of 110 or more out of 120.
